

**GHOST FERN***Athyrium 'Ghost'*

 ↑ 60 cm / 24" ↔ 45 cm / 18"

Upright growing, silver-white fronds. Leaves age to light green with new fronds appear throughout the season. An excellent choice mixed with other shade plants for added contrast.

**GODZILLA FERN***Athyrium 'Godzilla'*

 ↑ 100 cm / 40" ↔ 60 cm / 24"

Large, upright growing, green and silver fronds that are tinged with pink. Great mixed with other shade plants for added contrast.

**LADY IN RED FERN***Athyrium filix-femina 'Lady in Red'*

 ↑ 60 cm / 24" ↔ 45 cm / 18"

Lacy, bright green fronds on red stems form an upright plant. An excellent choice mixed with other shade plants for added contrast.

**METALLICUM PAINTED FERN***Athyrium niponicum 'Metallicum'*

 ↑ 60 cm / 24" ↔ 60 cm / 24"

Silvery-metallic fronds make this cultivar one of the most popular. Evenly moist soil, grown in afternoon shade will provide the best effect.

**BRILLIANCE AUTUMN FERN***Dryopteris erythrosora 'Brilliance'*

 ↑ 45 cm / 18" ↔ 45 cm / 18"

Very showy fern with new fronds that are copper-coloured maturing to green. Great for any woodland setting or shady area of the landscape.

**NATIVE FERN***Matteuccia struthiopteris*

 ↑ 40 cm / 16" ↔ 45 cm / 18"

Upright growing fern with green fronds that arise straight up. This native to the Prairie's is a perfect choice for shady areas.
